FULL STACK DEVELOPER (JAVA)

Full Stack Developer with over 6 years of experience designing and implementing scalable software solutions using Java, Spring Boot, and JavaScript. Skilled in full SDLC, microservices architecture, and agile development, with a background in IT management and vendor relations.

Languages: Java, JavaScript

Frontend: HTML, CSS, Angular, JavaScript, Bootstrap, jQuery, AJAX, JSP

Backend: Spring Boot, Hibernate, Node.js, Express.js, Struts 2

Databases: MS SQL, PostgreSQL, Oracle, MySQL

Web Services: RESTful, MicroServices, SOAP

Tools: IntelliJ, VS Code, Splunk, Eclipse, Docker, Postman, Maven

Version Control: Git, GitHub, Bitbucket

Cloud & DevOps: AWS (Certified Solutions Architect), Jenkins

PROFESSIONAL EXPERIENCE

APPLICATION ENGINEERING GROUP (Client: Enterprise Mobility), United States

Software Engineer II

June 2022 – July 2025

- Develop and maintain enterprise software solutions aligned with architecture standards and business requirements.
- Design and implement RESTful APIs and microservices using Spring, Spring Boot and Hibernate.
- Conduct unit and integration testing to ensure code quality and compliance with requirements.
- Participate in technical design discussions and provide recommendations on architecture and best practices.
- Troubleshoot and resolve complex application issues, ensuring minimal downtime.
- Manage application deployments and migrations across environments.

Technologies: Spring Boot, Spring Web, Spring Data JPA, Spring Batch, Spring Security, Hibernate, Struts2, JSP, Angular, AWS, Microservices, JUnit, Mockito, Oracle DB, Splunk, IntelliJ, Swagger, Bitbucket, Jenkins, Jira, Apache Tomcat.

INFOTECH DOT NET SYSTEMS LTD, Accra, Ghana**Software Engineer****2018 – 2021**

- Led project teams in collaborating with external vendors and stakeholders to deliver integrated health information systems, ensuring alignment with national healthcare standards and user needs.
- Collaborated with cross-functional teams to translate healthcare domain requirements into scalable software solutions.
- Developed RESTful APIs and backend services using Spring Boot and Hibernate.
- Built prototypes to validate feature designs and accelerate development cycles.
- Performed API testing using Swagger and Postman to ensure robustness and security.
- Participated in daily standups, sprint planning, and reviews to coordinate development and resolve technical issues.

Technologies: Spring Boot, Spring Web, Spring Data JPA, Spring Security, Hibernate, Microservices, JUnit, Mockito, PostgreSQL, IntelliJ, Swagger, Slack, GitHub, Apache Tomcat.

KAZIHUB LTD, Spintex Accra, Ghana**Backend Developer****2018 – 2021**

- Designed and implemented RESTful APIs for a point-of-sale system.
- Developed backend services using Spring Boot and Hibernate, ensuring seamless integration with frontend systems.
- Performed API testing and documentation using Swagger and Postman.
- Collaborated with frontend developers to ensure smooth data exchange and performance.

Technologies: Java, Spring Boot, Hibernate, Node.js, Express.js, PostgreSQL, MS SQL Server, Visual Studio Code, GitHub.

NEW CRYSTAL HEALTH SERVICES LTD, Accra, Ghana**IT Manager****2015 – 2018**

Managed IT operations and infrastructure for a major healthcare network, leading digital transformation initiatives including the development of a telemedicine application and modernization of health information systems. Oversaw vendor relationships for software solutions, negotiated contracts, and ensured vendor deliverables met quality and performance standards.

ST. JOHN OF GOD HOSPITAL, Duayaw Nkwanta, Ghana

IT Manager

2009 – 2014

Oversaw hospital IT operations, system upgrades, and rollout of health information systems, contributing to significant operational efficiencies and digital adoption. Managed relationships with software vendors to ensure successful implementation, support, and integration of purchased solutions.

ACADEMIC PROJECTS

Job Search Management System, MIU (2022): Designed and built Job Search application to track job listings, job applications, job interviews, and resumes. **Technologies Used:** *Java / J2EE, Spring, MySQL, Artemis, Swagger, Git, StarUML.*

Movie Management System, MIU (2022): Created movie application to handle movie registration, actors registrations, and awards received by actors. **Technologies Used:** *Node.js, Express, MongoDB, Angular.*

Dictionary Application: Built an online dictionary application.

Technologies Used: *HTML5, CSS3, Nodejs (Express), JavaScript/jQuery, Ajax, MySQL Database App*

Library Management System, MIU (2021): Collaborated with team to design library management application to handle member registrations, author registrations, book reservations, and overdue fines.

Technologies Used: *Java / J2EE, Java Swing, Git, StarUML.*

EDUCATION

Master of Science in Computer Science (2023)

Maharishi International University, Fairfield, Iowa

Key Courses: *Fundamental Programming Practices, Modern Programming Practices, Web Application Programming, Modern Web Applications, Enterprise Architecture, Algorithms*

Bachelor of Education in Computer Science (2008)

University of Cape Coast, Central Region, Ghana

CERTIFICATIONS

AWS Certified Solutions Architect – Professional ([f5823da867e94e5eb95d88fc68c0df1f](#)), 2023
